EDUCATION

University of Oklahoma

M.S. in Computer Science (Accelerated with B.S.) | GPA: 4.0
B.S. in Computer Science & B.A. in Mathematics | GPA: 3.76

Norman, OK

Expected: Fall 2026
Expected: Fall 2025

SKILLS

Programming Languages: Python, Java, PHP, C#, C++, C, JavaScript, TypeScript, R

Web & Backend: React, Next.js, Node.js, Express, .NET, REST APIs, Java Swing, Chrome Extensions (MV3), HTML, CSS

Data, Cloud & Tools: PostgreSQL, MySQL, MongoDB, Prisma, GCP, AWS, Docker, Git, Bash, Monolog, AI/ML, CI/CD

EXPERIENCE

Paycom

Oklahoma City, OK

Software Development Intern

May 2025 – August 2025

- Standardized structured logging across microservices (request IDs, user/action fields), enabling end-to-end tracing.
- Reduced noisy error log volume by **38%** with MySQL-backed toggle/TTL system for scoped, insightful logging.
- Built a lightweight admin UI to toggle Monolog processors, enabling specific troubleshooting without redeployments.

Paycom

Oklahoma City, OK

Software Development Intern

May 2024 – August 2024

- Built a background check vendor emulator; logged request/response traffic to MySQL for audit + deterministic replay.
- Shipped a React/TypeScript investigation console (timeline, filters, payload/status) enabling PM/QA self-serve triage.
- Achieved **~80% coverage** of third-party screening API calls, allowing teams to reproduce vendor behavior.

U.S. Department of Defense – Tinker Air Force Base

Oklahoma City, OK

Software Engineering Intern

May 2023 – November 2023

- Built a Java Swing maintenance-support application for B-2 aircraft engineering teams, streamlining workflows.
- Implemented Java/Swing validations and data utilities for maintenance forms, cutting down invalid forms by **~35%**
- Improved code quality and reliability through automated tests, code reviews, and continuous integration.

OU – Gallogly College of Engineering – Undergraduate Research

Norman, OK

Undergraduate Researcher

August 2023 – January 2024

- Conducted a systematic literature review (SLR) on AI/ML in racing games; presented findings at the ASEE conference.
- Designed and ran a multi-database search and screening process to synthesize ~20 peer-reviewed studies.
- Worked one-on-one with a professor/mentor beyond coursework to validate/strengthen findings.

PROJECTS

LeetCode Recommendation Engine | Python, React, TypeScript, Node.js, PostgreSQL, Prisma, AWS, Git

Present

- Designed and trained a Python recommendation ranking system suggesting the next problem by topic and difficulty.
- Full-stack productivity tool with AI code feedback and user-specific recommendations.
- Built a Chrome extension and interactive dashboard to track LeetCode progress, insights, and personalized notes.

Business Finance Dashboard | React, TypeScript, Node.js/Express, MongoDB, Git

December 2024 – March 2025

- Developed a financial analytics dashboard using the MERN stack to visualize complex datasets and trendlines.
- Implemented a simple regression model to predict yearly revenue, designed for integration with real business data.
- Built reusable React/TypeScript widgets (KPI cards, time-series, bar/scatter) for fast analytical insight.

OU Class Finder | JavaScript, HTML5, CSS3, Git

April 2023

- Created a static web application to map curriculum paths and dynamically render degree requirements.
- Implemented a responsive UI with modular components and interactive navigation for course selection.
- Integrated client-side filtering and search to help students quickly locate relevant courses and prerequisites.

ACTIVITIES AND LEADERSHIP

Vietnamese Eucharistic Youth Movement

Oklahoma City, OK

Youth Leader, Lion Dancer

Aug 2014 – Present

- Cultivating faith, leadership, and responsibility among +60 children through religious and cultural education.
- Fundraise for the church through lion dancing every Lunar New Year.
